

VSM ADVANCED USER TRAININGS 2019

INFORMATION AND DATES

We are pleased to invite you!

The **VSM Advanced User Trainings 2019** are especially addressed to those who already took part in one of the VSM User Trainings before and look into parameters which are critical success factors for the grinding process. Talk to our experts and optimize the potential of your grinding applications. The trainings provide you with the unique opportunity of gaining more knowledge about how to use coated abrasives and of having **an exchange among peers**.

Training modules

- > Latest lab findings and practical experience by VSM
- > Findings based on innovative scientific research
- > More advanced surface measuring techniques
- > Corrosion-resistance of ground surfaces
- > Grinding parameters, surface defects and how to avoid them
- > Hands-on training and measuring practice
- > Topical sample applications

Your benefits

- > Exchange with other experts
- > Expanding your know-how on grinding processes and on how to optimize them
- > Quality, competence and customer orientation with VSM
- > Enjoy the possibilities offered by our machine outfit

Our service

- > Simultaneous translation to foreign languages (for multilingual trainings)
- > Lunch and dinner
- > Shuttle service from the hotel to VSM and back

**The number of participants will be restricted.
Please use the attached form for your registration.**
